Medical Statement to Request Special Meals, Accommodations, Milk Substitutions

A licensed medical authority is defined as an individual who has the authority to write a medical prescription.

In Utah, this includes:

- Medical Doctor (MD)
- Physician's Assistant (PA)
- Osteopathic Physicians (DO)
- Advance Practice Registered Nurses (APRN)
- Naturopathic Physicians (ND or NMD)
- For programs operating in Bureau of Indian Education schools, the Indian Health Service requires that prescribing practitioners have Drug Enforcement Administration licenses.

USDA Guidelines for Accommodating Special Dietary Needs

Institutions and agencies participating in federal nutrition programs **must** comply with requests for special dietary meals and any adaptive equipment with a documented disability and completed request form.

Under Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act (ADA) **a person with a disability is defined as:**

Any person who has a physical or mental impairment which substantially limits one or more major life activities, has a record of such impairment, or is regarded as having such an impairment.

Major Life Activities- functions such as caring for one's self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, and working.

Major Bodily Functions- functions of the immune system, normal cell growth, digestive, bowel, bladder, neurological, brain, respiratory, circulatory, cardiovascular, endocrine, and reproductive functions

Physical or Mental Impairment- (a) any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more of the following body systems: neurological; musculoskeletal; special sense organs; respiratory, including speech organs; cardiovascular; reproductive, digestive, genitor-urinary; hemic and lymphatic; skin; and endocrine; or (b) any mental or psychological disorder, such as mental retardation, organic brain syndrome, emotional or mental illness, and specific learning disabilities.

Record of Impairment- having a history of or have been classified (or misclassified) as having a mental or physical impairment that substantially limits one or more major life activities. Individuals who take mitigating measures to improve or control any of the conditions recognized as a disability, are still considered to have a disability and require an accommodation.
